

Greetings,

We are very excited to share new information regarding the US-Turkey Creative Economies & Business Summit!

We have worked diligently to feature world-class, dynamic panelists on both the creative economies and business tracks of the summit. Six trade delegations will be joining the summit and will take part in site visits that will connect their organizations with university and industry partners throughout Turkey.

We are looking forward to a spectacular two-day event that will showcase the best that the countries of North America and Turkey have to offer in creativity, innovation, and potential business opportunities.

To learn more about the Creative Economies & Business Summit, please visit our website here: <http://www.trcna.org>.

The summit coincides with [Art Istanbul](#) (Nov. 4-10) and [Contemporary Istanbul](#) (Nov. 7-10), two events that celebrate the dynamic art scene found in Turkey. 'Contemporary Istanbul' is the leading international art fair in Turkey, which brings both a local and international focus to Turkey's vibrant metropolis every November. Running alongside this event is 'Art Istanbul' - a week-long celebration of contemporary art across the city. Museums, foundations, and other participating institutions will play host to a range of activities including talks, artistic performances, and workshops.

Thank you, and we hope to see you in Istanbul!

Best Regards,

Nurten Ural & Steve Webster
Co-Executive Directors, TRCNA
